

WELCOME

North Branford Public Schools aim to meet the needs of high ability, innovative, and motivated students through our Creative Learning initiative. Students will have multiple opportunities to develop their unique gifts and talents by engaging in Project-Based Learning (PBL). Through project initiatives led by our trained Creative Learning Resource Educators and our Library Media Specialists, students will question their surroundings, think critically to solve problems, and become more valued, contributing, and responsible members of society.

Staff and students alike encourage you to visit this site for news and events that are sure to stimulate the mind!
